

June 1, 2011

Dear Healthcare Industry Partner,

SCHFMA is pleased to announce that the Certified Revenue Cycle Associate Training Program (pronounced circa) for 2011-2012 will begin June 17, 2011. The CRCA training program is now in its' sixth year and has had 162 graduates who have obtained CRCA certification.

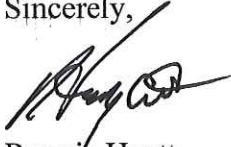

CRCA is an ideal training and certification program for:

- Patient Access Staff
- Patient Financial Staff
- Customer Service Staff
- Revenue Cycle Facilitators

The training covers topics such as Medicare, Medicaid and TRICARE to sections on Legal and Compliance-related issues and HIPPA. The CRCA Training Manual and corresponding examination addresses relevant topics within the Revenue Cycle. The certification that comes with passing the exam is prestigious and hard earned. Additionally, the amount of time necessary to both prepare for and take the exam requires commitment, but we believe the return on investment to be extremely worthwhile. Each individual obtaining the CRCA designation will not only have the satisfaction of completing such a rigorous certification program, but an added competitive edge in the healthcare industry as well.

Information on the program is located on the SCHFMA website at www.schfma.org under the Education & Events heading. Please join us for a free CRCA educational session on June 17, 2011 at Lexington Medical Center from 9:00am to 5:00pm. The registration form for this session is contained in the New CRCA documents link on the SCHFMA home page. Please help us spread the word about CRCA where knowledge and experience come together to form expertise.

Sincerely,

Ronnie Hyatt
President, HFMA - South Carolina Chapter
